## PROJECTS

---

### INVENTORY GENIUS

JUNE-2024

- **User Authentication:** Secure login and account creation system to ensure data privacy and personalized user experience.
- **Product Management:** Users can add new products by specifying details such as name, price, category, and company. The system allows for easy updates and deletions of existing products.
- **Real-Time Data Updates:** Changes in product data are reflected instantly, providing up-to-date information for all users.
- **User-Friendly Interface:** Intuitive and responsive UI built with React.js and Bootstrap, ensuring a smooth user experience on all devices.
- **Technologies Used:** MongoDB, Express.js, React.js, Node.js, Bootstrap.
- **Github link :-** [Inventory Github Repository](#)

### SNAPGRAM

Feb-2024

- **User Authentication:** Implemented secure and efficient signup, login, and logout functionalities with user data stored in the Appwrite database, ensuring data integrity and security.
- **Intuitive User Flow:** Existing users are redirected directly to the login page, streamlining the access process. Once logged in, users can effortlessly add photos, write captivating captions, and tag locations, enhancing social connectivity.
- **Real-Time Updates:** Leveraged Appwrite for real-time data management, ensuring users have immediate access to the latest content and interactions.
- **Technologies-** Typescript, JavaScript, Reactjs , TailwindCSS , Shadcn , Appwrite.
- **Github link :-** [Snapgram Github Repository](#)

### CHAT APPLICATION

OCT-2023

- **Real-Time Messaging:** Utilized **Socket.io** for real-time, bidirectional communication, allowing users to send and receive messages instantly.
- **Scalable Architecture:** Built with **Node.js** and **Express.js**, ensuring a robust and scalable backend capable of handling multiple concurrent connections.
- **Technologies** - Nodejs, Socket.io, Javascript, Html5, Css.
- **Github link :-** [Chat Github Repository](#)

## COURSE WORK

---

- Operating System
- Data Structure & Algorithm
- Database
- OOPS

## ADDITIONAL

---

**Certifications & Training:** Mern stack from Briztech Infosystems with grade A+.
